

New FreeView Patient TV & Radio System

To supplement Wandsworth's established Tele-Call Patient Entertainment and Communications Solutions, we are pleased to announce for sale a new model enabled for FreeView TV & Radio for future-proofing against Analogue TV switch-off. With a simple to use control panel this unit will appeal to a number of key Healthcare markets.

- Restricted functionality for simplicity of use
 - ONLY FreeView channels supported
 - AV inputs for local DVD / AV device connection
- No telephony options – no added costs
- Established, reliable, wallbox and articulated arm mounting options
- Conventional Co-axial cable network required
- 2 year warranty – no service contract
- Spray & Wipe sterilisable

KEY MARKETS:

The New system is ideally specified – **and priced** – to appeal to:

- Hospices
- Care Homes
- Community Hospitals
- NHS Hospitals unable or unwilling to utilise Patient Power systems

Technical Outline:

- Part Number - TV100 Complete freeview unit
- High quality LCD TFT Panel 10.4" 4:3 format
- Built in 'FREEVIEW' digital tuner for TV and Radio
- AV inputs for 3rd party DVD player etc.
- Waterproof rating IP56 (except bottom edge – headphone jack socket)
- Articulated arm, fully enclosed cables. Extendable to 1500mm from wallbox ; Further alternatives available
- Integral stereo speakers muted when headset inserted
- Simple Front panel controls for ON/OFF, TV/RADIO, Channel Up/Down, volume Up/down
- Waterproof remote control (NOT required for normal use)
- Power Input:10V-40V DC; PSU housed in wall box
- Signal Input: 75Ω composite video co-axial network
